

# GENERAL ALARM®

A Division of Mulhaupt's Inc.

## Managed Access Control End User Benefits

- No software, dedicated computer or badge printer onsite
- Reduces personnel and labor cost for system operation and management
- Eliminates service calls for computer maintenance, software upgrades, support and training
- View your access control system online through a secure web portal – add/delete cards and run basic card and event history reports
- Guarantee that confidential data is protected on secure servers and only handled by factory-certified operators
- Provide peace of mind – Know your data is secure and backed up by protected servers
- 24-hour software support provided by factory-certified technicians
